

General Terms and Conditions for Tidal Data

Tidal predictions are supplied on the understanding that they are for the customer's sole use. The data can be reproduced in any printed publication for which the customer holds the copyright. These publications are the only form in which the data can be passed on to third parties. The data should not be reproduced by the third party and the publication should include a copyright statement (see section 3).

The National Oceanography Centre (NOC) is not able to warrant the accuracy of tidal predictions supplied to the customer and has no responsibility for determining the fitness of the data for their intended use by the customer. The provision of such data carries no liability for its accuracy or reliability and neither NERC nor its employees can be held accountable for any loss, damage, injury or any other occurrence arising from the use of the data.

For tidal predictions reproduced in a publication, an acknowledgement must also be printed in the publication with the following wording:

Tidal Predictions for
have been computed by the National Oceanography Centre : Copyright Reserved

NOC reserves the right to acquire without charge a copy of any value added product sold or marketed openly so as to verify the reproduction of the data.

Acceptance of the tidal predictions signifies that you have read and accepted these terms and conditions.

Additional Terms and Conditions relating to the POLTIPS software

Additional terms and conditions apply to users of the POLTIPS tidal prediction software package and these are specified in a separate document supplied with the software that should be read in conjunction with this

document. If you are using POLTIPS and have not seen this document please contact Marine Data Products at NOC (dataproduts@noc.ac.uk) who will send you a copy.

The software itself is provided for the sole use of the customer and cannot be passed on to third parties in any form. The customer is entitled to make a single copy of the disks for backup purposes only. The software must not be installed on more than one computer system unless a multiple use licence has been purchased.

Additional Terms and Conditions relating to Publication of Tidal Predictions

The terms and conditions listed in the bullet list below apply to data computed and supplied by NOC (in paper form, electronic PDF files or raw data text files) or data derived by users of the publishers version of POLTIPS.

- Data can be published in any printed format. The data should be published in the format supplied / generated by the POLTIPS software.
- Data can be published in any electronic book format . The data should be published in the format supplied / generated by POLTIPS.
- Data can be embedded into a smartphone app, however NOC takes no responsibility for the correctness of the data when it is displayed as this is often dependent on computer code outside of NOC's control.
- A charge can be made for the published product.
- For tidal data purchased directly from NOC, or for users of the publishers/custom version of the POLTIPS software: a maximum of 3 months advanced tidal predictions may be published on a free public access website on condition that: (i)

the copyright statement is included on the same page as the predictions; (ii) a link is provided from the copyright statement to our own website (<http://www.noc.ac.uk>); and (iii) NOC is notified of the website address where they are to be published, in order that the data may be checked.

- For users of the standard version of POLTIPS, a maximum of 3 days in advanced tidal predictions may be published on a free public access website subject to the same conditions outlined in the previous paragraph.

If you are unsure as to whether you have permission to publish the data, or have any other queries regarding the terms and conditions given above, please contact Marine Data Products.
